PROFILE SUMMARY

Undergraduate software engineering student excited about developing solutions with modern web technologies and more. Seeking a software development internship to apply skills, solving problem abilities, and gain valuable industry experience while contributing creativity to real-world projects.

EDUCATION

ICBT Kandy Campus | 2025 Present

BSc (Hons) in Software Engineering
Cardiff Metropolitan University (UK)

Key Courses:

1st year (2024)

- Business Information Systems
- Computer Architecture
- Contemporary Themes in Technology
- English for Academic Purposes
- Fundamentals in Programming
- System Analysis and Design
- Computer Networks
- Database Design and Development
- Object Oriented Programming
- Professional Practice

2nd year (2025 – Present)

- Data Structures and Algorithms
- Mobile Application Development
- Project Management
- Web Application Development
- Business Analytics
- Computing Project
- Service Oriented Computing

Sri Chandanandha Buddhist College | 2012–2022

GCE O/L Examination

BCAS Kandy Campus | 2023–2024

Diploma in English and Information Technology

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, Java, C#, SQL, PHP
Databases: MySQL, MongoDB, Firestore
Frameworks & Tools: React.js, Node.js, Express.js, Visual Studio Code, IntelliJ IDEA
Specializations: MERN Stack
Other Tools: Git, GitHub, Postman, Stripe, Clerk, Vercel

PROJECTS

- Event management system** [Live Demo](#)
- Built an online event management platform with event creation and customization.
 - Integrated Stripe and JWT for payments & authentication.
 - Contributed to this project as part of my second-year final project at ICBT Campus, designed to provide a real-world solution for event management in Sri Lanka.
- Fitness center management system**
- Built an online fitness center management platform with class creation, trainer scheduling, and booking.
 - Uses PHP and MySQL (XAMPP) with session-based authentication.
 - Contributed to this project as part of my first-year project at ICBT Campus, designed to provide a practical, real-world solution for gym/class management in Sri Lanka.
- Online gadget ordering system**
- Built an online gadget ordering platform with products selection, View orders/quotations, and ordering products.
 - Uses C# and MySQL with an ASP.NET Core Web API backend.
 - Contributed to this project as part of my second-year project at ICBT Campus, designed to provide a real-world solution for online gadget ordering in Sri Lanka.

CERTIFICATES

Diploma in English and Information and Communication Technology 2023 ICBT Campus	Diploma in English 2024 BCAS Campus
Certificate in Information Technology 2024 BCAS Campus	Programming Workshop 2023 BCAS Campus
International diploma in Information and Communication technology (level 3) 2024 International college of business and technology	National Intermediate Age group Swimming Championships 2017 Sri Lanka Aquatic Sports Union
44th National Intermediate Age group Swimming Championships 2018 Sri Lanka Aquatic Sports Union	National Intermediate Age group Swimming Championships 2017 Sri Lanka Aquatic Sports Union
Foundational C# with Microsoft FreeCodeCamp	Node.js (Basic) HackerRank
SQL (Basic) HackerRank
